DENVER PROGRAM

Business For the National Convention.

MAY BE 4 SESSIONS

For President Will Probably Be Made on Thursday, Then Government, and the Nomination of President on Friday.

Denver, Colo., July 6.—The committee on arrangements of the national convention met and completed the order of business for the convention for the session of the national committee to be held on Monday. The convention program is outlined for sessions, beginning next day. This will carry the convention through to Friday afternoon, unless the committee or the delegates should prolong the deliberations. It is proposed that adjournment shall be taken immediately after the temporary organization is perfected, out of respect to the memory of the late Mr. Cleveland, although this feature does not enter on the formal program.

Program for First Day.

The first day's order of business is as follows: 1.—Chairman Taggart, of the national committee, calls the convention to order at noon. 2.—Secretary Woodson reads call to convention. 3.—Prayer by Archbishop James J. Connelley. 4.—Announcement of temporary officers agreed upon by the national committee. 5.—Chairman asks for further nominations. 6.—No further nominations, chairman puts question on agreeing to the recommendations of the national committee. 7.—Chairman appoints committee of delegates to escort Temporary Chairman Theodore A. Bell, of California, to chair. 8.—9.—Introduction and speech by temporary chairman. 10.—Call of states for members of the following committees: Credentials, permanent organization, rules and order of business, platform, and resolutions. 11.—Probable adjournment or recess. It is expected that the Cleveland resolutions, as finally agreed upon, will be introduced just before adjournment.

Second Day's Program.

For the second session of the convention on Wednesday, the program for the permanent organization, the address of the permanent chairman, and the receipt and adoption of committee reports.

The nominations for president will be made Thursday, and it is planned to adjourn after this is settled until Friday morning, when the nominations for vice president will be in order.

MANY KILLED IN PARAGUAY.

Revolution is Said to Have Broken Out Recently.

Buenos Ayres, July 6.—The latest advices received from private resources at Formosa, in the northeastern part of Argentina, say that there has been sanguinary fighting in the streets of Asuncion, the capital of Paraguay, where a revolution is said to have broken out recently and that hundreds of persons have been killed or wounded.

Edward C. O'Brien, the United States minister to Paraguay and Uruguay, and Harry B. Owsley, Jr., secretary of the legation, both are in Asuncion.

Communication by telegraph and telephone with Asuncion has been cut and consequently there are conflicting rumors of a sensational character current here.

Hoots for the Mutineers.

Brest, July 6.—A mutiny in the 10th regiment of the 1st division of the army of the Rhine, and a score of soldiers are now confined in the barracks at Brest.

INTEREST IS RENEWED.

Selection of a Republican National Chairman.

Washington, July 6.—Renewed interest in the matter of the selection of a republican national chairman was aroused by the presence in Washington, D. C., of W. L. Ward, of New York and Frank B. Kellogg, of Minnesota. They are the members of the republican national committee from their respective states and both are members of the sub-committee appointed to confer with Judge Taft on the question of the national chairmanship.

They were no more communicative than they were a night previous on their arrival in this city.

While a tentative determination of the matter may have been reached in the course of the numerous conferences which Judge Taft has held with friends since he returned to Washington, it is quite certain that no hard and fast agreement has been evolved from the conferences. It is known that Mr. Kellogg, who has been in New York and in Oyster Bay since he last conferred with Judge Taft personally, has been in long distance telephone communication with Judge Taft respecting the chairmanship. Reiteration is made of the statement that no intimation of an official nature will be permitted to become public concerning the selection of a chairman until after the meeting of the sub-committee with Judge Taft at Hot Springs next Wednesday.

BIRDS CARRIED MESSAGE.

Sailors Saved After Many Weary Days of Suffering.

Victoria, B. C., July 6.—While sending a farewell message in a quill attached to the neck of an albatross, one of the series of daily messages recounting briefly the story of the wreck on Antipodes Island of the French bark, President Felix Faure, twenty-two starving French sailors were rescued by the British warship Pegasus and brought to Sydney.

The castaways, who lived a Crusoe life, fashioning their utensils in the same resourceful way as the maroon of Juan Fernandez, south of New Zealand, near where survivors of the British bark, Dundonald, were rescued months before, after their vessel had been driven to shore during a fog in March last, and had almost given up hope of rescue when the British warship was sighted.

The men were ravenous when rescued, having been on short rations for some time.

THE BORDER SITUATION.

Washington Making Efforts to Learn All Facts.

Washington, July 6.—The state department officials are making every effort to learn the facts connected with the border situation in order to be prepared to answer the complaint that is expected to be filed by Ambassador Creel as soon as he arrives in Washington next week, to the effect that some of the Texas officials have not lived up to the requirements of the neutrality laws.

The department believes that the Texans have actually done all they could in restraining the departure of revolutionists across the border, considering the great extent of the territory to be guarded and bearing in mind the fact that the states generally have come to look to the national government for such international police duty.

Oxford University Endowment.

London, July 6.—The Oxford university endowment fund, which was inaugurated by Lord Curzon on his election to the chancellorship, has reached \$500,000, and W. W. Astor has given his second donation of \$50,000, which he promised on March 12. Mr. Astor's total donation amounts to \$100,000.

Good News for the Thirsty.

Paducah, Ky., July 6.—Saloonkeepers are rejoicing as the result of a fierce war between brewery agents and the local brewery, caused by the rebating. Cans beer has been cut from 22.50 to 11.50 barrels from \$5 to \$2, and half barrels from \$4 to \$2.25. Much lower prices are in prospect.

NOTED AUTHOR DEAD

Joel Chandler Harris Is Called to the Beyond.

KNOWN AS "UNCLE REMUS"

In the Death of Mr. Harris, the South Has Lost One of Its Most Brilliant Contributors to Literature—Had a World-Wide Reputation.

Atlanta, July 6.—Joel Chandler Harris, journalist and author of the Uncle Remus stories, died Friday night at 8 o'clock at his home in West End.

The noted author was surrounded by all the members of his family, who had realized for several days that death was inevitable. He was totally unconscious for twelve hours preceding his death.

Realizing that the end was near, Uncle Remus was genial and resolute. He made no attempt to conceal his belief concerning himself from the

members of his family. His irrepressible humor, his indomitable good spirits never deserted him. The old playful, whimsical manner in his intercourse with the family was preserved until he sank into final unconsciousness.

Friends Were Anxious.

Since the first publication of the news that Uncle Remus was desperately ill, his friends throughout the city and in all parts of the country have besieged the house for news of the patient's condition. During his life-time many of the most notable people of the world have sought the quiet little home in West End to see the genial philosopher and the gentle humorist whose work has so enriched American literature. His house was one of the places of national interest. To it men of every profession and degree of prominence made pilgrimage while in Atlanta.

During the past two days hundreds of callers have visited "Snap Bean Farm" in sadness. Scores of telegrams from friends and admirers all throughout the state and nation have been received containing expressions of sympathy and affection.

Joel Chandler Harris had his first taste of newspaper life on the Countryman, a weekly newspaper published by Joseph Addison Turner, on his plantation 2 miles from Kinston, in the county of Putnam.

After leaving the plantation he was engaged in newspaper work in Savannah, Macon and New Orleans. He practiced law at Forsyth, Ga., at the same time doing editorial work.

The "Uncle Remus" Series.

He joined the staff of the Atlanta Constitution in 1875, and it was through his connection with this paper that he entered upon the work which has made him famous wherever the English tongue is spoken. In the files of the Atlanta Constitution will be found much of his best work, both serious and humorous. In addition to his able editorial contribution there appear the first of the Uncle Remus stories, which were later collected and published in book form.

Before Uncle Remus took up this work a series of dialect stories by Sam W. Johnson, who was active in

der the sobriquet "Old Si," had been a regular and attractive feature of the paper. When these ceased Captain Evan P. Howell, then editor of the paper, urged Mr. Harris to carry on the feature. The latter demurred, declaring he had never done any dialect writing in his life. Captain Howell insisted, however, and told Mr. Harris he could easily make a big success of the work. Racking his brains, Mr. Harris thought of one of the old folk-lore stories that had been told him on the plantation in Putnam county. This he reduced to writing, using the negro dialect, and published it under the name of Uncle Remus. Other stories followed. They made an instantaneous hit.

Known Throughout World.

The series began at that time have since been read throughout the civilized world. From them the author received a generous return in money, in addition to the income from his regular newspaper and magazine work. But better than the material reward, he received the blessings of countless thousands of little children whom he has made happy.

Mr. Harris leaves a wife and several children. The children are Julian Harris, formerly managing editor of the Atlanta Constitution and now managing editor of Uncle Remus Magazine; Lucien Harris, who is connected with the office of the county tax collector; Evelyn Harris, formerly city editor of the Atlanta Constitution and now connected with the Southern Bell Telephone and Telegraph company in Atlanta; Mrs. Fred Wagener, Jr., J. C. Harris, Jr., and Miss Mildred Harris.

The funeral services occurred Sunday at St. Anthony's Catholic church in West End. Mr. Harris was buried in the Catholic faith a week before his death.

MIGHT NOT BE A CANDIDATE.

Declares He is a Democrat and Will Remain One.

Atlanta, July 6.—"I have no idea of running for president on the national prohibition ticket," said Seaborn Wright, of Floyd county, Friday. He was leaving Atlanta for Athens, O., where he will deliver an address.

"I am a democrat," he continued, "and expect to stay one."

Chairman Jones, of the national prohibition party, was in Atlanta Thursday and intimated that Mr. Wright might be offered the nomination.

Will Ask to Punish Officials.

City of Mexico, July 6.—Mexico will ask the United States to punish severely the local authorities at Del Rio, Tex., and possibly others, of the state under whose authority they acted on the ground that the officers knowingly failed in their duty by allowing persons who partook in the Lasvacas raid to return to the Texas side of the river and to bring with them their weapons.

Punishment may also be asked for the authorities and police of Del Rio, for allowing meetings to be held there for the purpose of fomenting and planning raids, murder and robbery in Mexico.

Monument to Crawford.

Atlanta, July 6.—To erect upon the capitol grounds in the city of Atlanta a monument to William H. Crawford at an expense of \$15,000 is the object of a bill introduced in the house Friday by Mr. Brown, of Oglethorpe. William H. Crawford was United States senator from Georgia, secretary of the United States treasury, minister to France and a distinguished orator. His body lies in the cemetery at Crawford, Oglethorpe county. The bill provides for a commission to purchase the monument and have it erected.

Sixty-Two Auto Fatalities.

Boston, Mass., July 6.—Automobiles killed sixty-two citizens of this state in the past twelve months. Among the persons known to have been injured in that period 640 sustained serious injuries.

Banks Asked for \$45,000,000.

Washington, July 6.—Secretary of the Treasury Cortelyou has announced a further call upon the national bank depositors for approximately \$45,000,000 to be paid on or before the 15th instant.

THIS IS GOOD NEWS

A Big Surplus is in Uncle Sam's Bank Instead of Deficit.

REPORTS ARE CORRECTED

Statement issued by the Treasury Department Shows that the Finances of the United States Are in Better Condition Than Supposed.

Washington, July 6.—In a statement issued by the treasury department Friday it is stated that "altho treasury statements show a deficit in round numbers of \$60,000,000 in the operations of the government during the fiscal year just closed, the deficit is more apparent than real, being due to antiquated system of book-keeping which Secretary Cortelyou is having overhauled and modernized.

Considering the ordinary receipts of the government, there is not only no deficit, but a surplus. The amount of new debts created during the year was only \$7,000,000 in excess of the amount of the old debts redeemed; and \$85,000,000 was expended in new public works, of which less than half was paid for by the creation of a funded debt.

Two of the fundamental errors in the present system of making up the treasury statements for the proceeds for bonds sold are not counted in the receipts, but all the money which is paid out for the purposes for which the bonds are issued is included in expenditures. In this respect the practice of the United States treasury departs from that of all other important governments.

Secretary Cortelyou has had under consideration for some time the thorough revision of the treasury statements with a view to making them represent accurately and in easily understood form the exact condition of the government's finances.

SPLIT MAY COME.

Action of State Committee May Intensify Feeling in Tennessee.

Nashville, Tenn., July 6.—The democratic state executive committee met here and adopted a resolution instructing the counties in which Patterson got a majority of the votes in the recent primary to send solid delegations-instructed for Patterson for governor to the state convention, which meets here on July 14 and those counties carried by Carmack to send solid Carmack delegations. This action was taken because of the rumor that some of the counties would not carry out their instructions.

The action of the committee, it is believed, will intensify the already bitter feeling existing between the Patterson and Carmack factions, and may ultimately result in a split in the convention. The Carmack people contend that the instructions already given delegates are sufficient. The Patterson forces fear that the Carmack people will organize the convention and insert a state-wide prohibition plank in the platform.

Bucket Shops Prohibited.

New Orleans, July 6.—The senate of the Louisiana legislature has passed a law prohibiting bucket shops in the state of Louisiana, the measure being the one offered by the cotton exchange people in substitution for the Morrison bill to prohibit dealing in cotton futures, which is expected to be killed when it comes up.

Death of Mrs. Lanham.

Waco, Tex., July 6.—Mrs. W. T. Lanham, wife of former Governor Lanham, died suddenly Wednesday at the town of Weatherford. Governor Lanham has been in bad health for the past two years and it thought worthy over her husband's condition hastened the death of Mrs. Lanham.

370 Killed in Massacre.

St. Petersburg, July 6.—A massacre is on at Tabriz, Persia, and the city is being sacked by the soldiers of the shah, according to authentic dispatches received here. Before beginning the massacre, 370 persons were killed and 700 wounded.

J. O. LAFONTISEE IN A NEW ROLE

Has Received Appointment as Government Expert on Turpentine.

THE FOREST SERVICE BUREAU

Many Things to Be Determined by the Government Regarding the Products of the Pine—Gathering and Publication of Statistics.

J. O. LaFontisee, late campaign manager for Albert W. Gilchrist, successful candidate for the Governorship of the State, is in a new business. The Savannah News says:

"J. O. LaFontisee, an expert from the forest service of the United States Department of Agriculture, is in Savannah, having arrived yesterday from Washington for the purpose of conferring with the leading factorage houses. He would not give out the plans to be adopted in securing the information desired, but stated that the work will be as thorough and as complete as possible to make it.

"This will be the first time the Agricultural Department or any other department of the United States Government has made an investigation of this industry along these lines. There have been experiments conducted to ascertain the best methods of securing turpentine with a view of preserving the pine forests of the South, but aside from that there has been little work done either in ascertaining the amount of the annual output of naval stores, or the condition of the pine forests of the South as pertains to this great industry.

"Mr. LaFontisee will go to Jacksonville, and from there proceed to New Orleans, Mobile and Montgomery. During a part of the time that this study is under way Mr. LaFontisee may have headquarters in Savannah.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ caused baldness, Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

of the naval stores industry under a special appropriation made by the last session of Congress.

Briefly this study will include the following:

"A study to determine the extent to which turpentine under present methods has destroyed the pine forests of the South, and the present supply of timber suitable for working.

"A study of different methods of turpentine to determine those which are least destructive to the forest and which give the largest yields.

"A study to determine what methods in refining the crude product will give the most acceptable grades of naval stores in the largest quantity.

"A study to determine how far it is practicable to produce naval stores from waste wood and thus to lessen the drain upon the forests.

"The gathering and publishing of statistics on the annual production of naval stores in co-operation with the bureau of the census, in the same general manner that other statistics of forest products are secured and published.

"A study to determine what proportion of the naval stores produced is produced by the cup and gutter system.

"It is expected that the work will be well under way by July 15th. Preliminary steps, such as arranging for a definite plan of operation and the selection of a competent force, are always under way and when the field force begins active work the necessary information as to location of turpentine stills, the best methods to be employed and other data will be at hand."

THE FOURTH AT ISLAND GROVE.

Young People Properly Celebrate the Nation's Birthday.

Island Grove, July 6.—One of the several pleasant events in Island Grove was an entertainment Saturday evening, July 4, given by the ladies and gentlemen of this place.

Quite a number of young people were present, and the occasion was marked by good cheer and merriment. Many National songs were sung in concert, and the event was a prominent one, musically and socially as well. The program was rich in variety and gave scope for the wonderful ability displayed in getting it up. Many of the young people spoke dialogues of an interesting character with much credit to themselves. The music was well rendered by the popular and talented musician, Mrs. Mattie Crosby. A solo was also rendered, "God and Our Nation," by Mrs. L. M. Cauty in an enthusiastic manner.

The exercises were concluded by the singing in concert, "Columbia, the Gem of the Ocean." Progressive forty-two songs and recitations were rendered until a late hour, when refreshments were served to the enjoyment of all present. The entertainment passed off pleasantly, and when all adjourned to their homes it and thus ended the day.

SPECTATOR.

WASHINGTON LETTER

(Special Correspondence.)

Washington, D. C., July 6.—The Republican managers are at war with each other over the selection of a chairman of their National Committee. Candidate Taft seems loath to settle the matter and has postponed the evil day until July 8th. Whatever decision he arrives at will not add to the era of good feeling that is necessary to get the brethren together. The trouble is the antipathy of Hitchcock and Voreys, the two Taft managers of the campaign for the nomination. Although Mr. Hitchcock has said that his health will not permit him to assume the arduous duties of chairman, his friends are still very actively at work in his behalf which would indicate that he wants it. Hitchcock is here and Voreys also, and there is no love lost between these two, for both seem to imagine they fixed things for Taft and are entitled to the chairmanship as a reward. Both of these practical politicians know too much to be neglected by Mr. Taft, and both will have to be taken care of politically, and no doubt will be. If the law compelled publicity of expenditures made in securing nominations, there would undoubtedly be a nest of corruption in the way of money spent and offices promised exposed to the American people which would astound them and perhaps defeat Mr. Taft for President.

But the Republican leaders having defeated the bill for publicity of campaign contributions and expenditures, and having rejected the LaFollette plank to the platform which promised legislation requiring publicity, the Republicans find themselves handicapped at the beginning of their campaign by the jealousy of the two managers, who, having had a taste of blood in the selection of the candidate, now want to feed on the full body of political corruption. It is almost certain that Voreys will not be selected as chairman, for although he undoubtedly cleared the way in Ohio for Taft, yet his appointment would emphasize the deal that was made with Boss Cox, allowing him in return for supporting Taft to dictate the nomination of very questionable candidates for the principal State officers in Ohio, which quite a large faction of the Republican party in that State is refusing to support.

If the Democrats adopt a plank in their platform for publicity of campaign contributions and expenditures both for the nomination of candidates and for their election, that issue will be quite prominent in the campaign and may affect enough voters in the doubtful States to turn the tide in favor of the Democrats. It is said that Mr. Bryan favors such a plank and will advise the new chairman of the Democratic National Committee to publish the items of all receipts and expenditures in this campaign. If Mr. Bryan should also have the expense incurred by himself and his friends in his long campaign for the nomination made public, he would make it decidedly uncomfortable for Mr. Taft, in whose interest a very large amount of money is reported to have been spent by his brother and others, for it is said that many such expenditures would hardly look well in cold figures.

There will be no initiative and referendum plank in the Democratic platform I am assured upon high authority, but the anti-injunction declaration is to be about as the labor people desire, except that the wording will be much condensed. I am also informed that the whole platform is now undergoing a severe blue pencilling process at Lincoln and will emerge from Mr. Bryan's sanctum sanctorum in an abbreviated form that will contrast favorably with the verbose boastings of the Republican platform.

RO MAN KILLED AT JONESVILLE

Trapp Inflicts Mortal Wound Upon

and Is in Jail.

killing occurred at Jonesville,
miles west of Gainesville, Satur-
day under circumstances which, as
stated by relatives of the man who
the killing, are most peculiar.
The circumstances as related to the
crime are as follows:

Charles Trapp, a young colored man,
some companions were shooting
targets in the shape of hats be-
thrown into the air, when one of
the targets from Trapp's gun inflicted
a mortal wound on Jim Stafford,
a colored man, who was some
hundred and fifty yards distant.
Soon as Trapp learned that he had
killed Stafford he surrendered to the
authorities and was brought to
Gainesville and lodged in jail.

It is reported that there is another
version of the killing, and the true
story will probably come out at the
inquiry before Justice Henderson
Newberry on the 8th inst. Col. B.
Thrasher has been retained to de-
fend Trapp.

At 9:45 o'clock last night an alarm
fire from Box 63 summoned the

grocery store, where the fire was soon
located in John Cowan's fish market
and restaurant. The door was broken
open, a stream of water turned on
and the blaze soon extinguished. It
was noticeable what quick work the
department did in this instance. Be-
fore the alarm finished striking six
drivers of the wagons were on
their way to the fire. What depart-
ment can beat this?

A Jolly Set of Gainesville Girls Will
Entertain At Haile Homestead.

Unique invitations have been issued

old Haile Homestead at Kanapaha,
given by ten of Gainesville's most
popular young ladies. The party
leaves the city this afternoon via the
S. A. L., among the number being
Misses Louise Walker, Irene Mc-
Creary, and her guest, Essie Bessant
of Jacksonville, Pearl Whetstone and
her guest, Rosa "Belle" Girardeau of
Monticello, Annie Cannon, Emily Van-
Deventer, Alma Fennell and her guest,

Willie Anderson, Mal Houghton of
Ocala, and Messrs. Albertson, Bouis,
Houghton and Riley of Jacksonville.

This jolly party will be delightful-
ly chaperoned by Mr. and Mrs. J. W.
Walker, Mr. and Mrs. Evans Haile,
and Mrs. Rachael Haile, and will be
absent from the city about ten days.

They Are Accommodating.

Mrs. Rosa Waters and son, Wallace,
left yesterday for Brunswick, Ga.,
where they will visit Mrs. E. F. Tay-
lor for a couple of weeks. Mrs.
Waters is the senior delivery clerk
in the Gainesville postoffice and is
without doubt the most popular de-
livery clerk in the State, next to her
being the very efficient and obliging
Mrs. Zetrouer, who is in
charge of the delivery department dur-
ing her absence. These ladies are
always gracious and obliging, being
possessed of dispositions which never
become "ruffled," no matter what the
provocation. We know of only one
lady in town who is always "equal to
the occasion," as these ladies are,
and that is Miss Alma Sullivan, the
chief operator at the Bell Telephone
station. We intend no disparagement
to others in similar capacities, but
without doubt these ladies are the
most obliging officials that we have had
business dealings with. Would that
more were like them.

Large Drive of Cattle.

Archie Jackson and William Adams
have returned from Lafayette county
and the Suwannee river section with
an exceptionally large drive of cat-
tle for this market. There were 270
head in the bunch, all of which were
sold to J. G. Harrold of this city.
Gainesville secures her main supply
of beef cattle from the Suwannee
river section, and Mr. Harrold is al-
ways on the lookout for good stock
therefrom.

Card of Thanks.

We wish to extend our sincere
thanks to Captains Lynch and O'Neill,
Umpires Chubb and Burkham, to all
the players, and to The Gainesville
Sun, which thoroughly advertised the
game, and to all who assisted in mak-
ing the recent "Pat" and "Lean" base-
ball game, given for the benefit of
the band, such a success.

Very respectfully,

THE BAND.

NEWS OF CITY AND COUNTY CONDENSED

Miss Mabel Sanchez has gone to
North Carolina for the summer. She
will spend the most of her time in
Saluda, visiting friends.

Don't think that piles can't be cured.
Thousands of obstinate cases have
been cured by Doan's Ointment. 50
cents at any drug store.

The many friends of Mr. James
Doig will be pleased to learn that
he is again able to be about the house,
after an illness of several weeks.

Prof. F. H. Ellis of Santa Fe was
in the city yesterday. Professor Ellis
made an excellent race for county su-
perintendent of schools during the
May primary.

Clyde Richardson of High Springs,
a nephew of Mrs. G. S. Merchant and
Mrs. H. H. McCreary, was in Gaines-
ville for a few hours yesterday en
route from Hawthorn, where he had
been for several days, to his home
at High Springs.

Prof. E. H. Collier has been elected
principal of the Martha Perry Insti-
tute at Rochelle. Prof. Collier is a
strong man. One of the largest
schools in the State was fishing for
him, and Alachua county is to be con-
gratulated upon securing him.

J. K. Feaster, member of the Demo-
cratic Executive Committee from Ro-
chelle, was in town yesterday. Mr.
Feaster has just finished shipping a
very large crop of exceptionally fine
watermelons, but says that on account
of the unjust freight charges he
realized absolutely no profit on his
crop. This is the general complaint.

The County Commissioners met yester-
day as required by law to receive
the tax books from the assessor, but
happened as the books were not ready
for delivery the assessor was granted
until the 20th to have same prepared
for acceptance. Assessor Colson has
had much additional work on the
present books, which accounts for the
delay.

Capt. W. E. Bell of Trenton was in
the city yesterday on business. He
says the farmers of the West End are
in the best condition of any in the
county. The corn crop will be the
largest harvested for years, and other
crops are also in excellent shape.
Hogs are plentiful, and there will be
no scarcity of "hog and hominy" with
them for the coming season.

Lige Kite and family of Lake But-
ler and Robert Kite of Orange
Heights, brothers of John Kite, and
E. R. B. Kite and wife, the former
a nephew of John Kite, spent the
Fourth with the family of John Kite
at Hague. John had not seen Lige,
his Lake Butler brother, in several
years, and hardly recognized him at
first, hence it was a happy meeting.
Mrs. John Kite returned with Lige,
and will spend several days as the
guest of his family at Lake Butler.

MR. BELOTE IS DEAD.

Student at University Dies Suddenly
at Home in Pensacola.

The sad news of the death of Mr.
Edward R. Belote was received in
this city Sunday. Mr. Belote died at
St. Anthony's Hospital, Pensacola, at
an early hour Friday morning, July
3rd, from the effects of an operation
for appendicitis.

Deceased was a student at the Uni-
versity of Florida and was at home
spending his vacation when he was
taken ill about a week previous to
his death. Mr. Belote was 23 years
of age and was one of the most stud-
ious and popular of the students at
the University. He was a member of
the Kappa Alpha society of the Uni-
versity and was highly esteemed by
his large circle of friends in Gaines-
ville, all of whom sincerely regret his
untimely death.

THE WANT ADVERTISEMENTS ARE "HUMANIZING!"

"bargaining," of exchanging useful but not used things for
useful and usable ones.

The Fourth of July was a tame affair in Gainesville, only a few boys celebrating by the exploding of fireworks.

It is to be hoped that when Royal C. Dunn becomes Railroad Commissioner he will "do something" towards establishing a union depot in Gainesville.

The President having nominated his successor, now seems to think that he will have to run the election also. Poor Taft is certainly handicapped.

Commander Peary is quoted as being "as confident as ever" that he will reach the north pole. So is Mr. Tom Watson "as confident as ever" that he will be elected President, no doubt.

It is said that Theodore Roosevelt, Jr., is to find employment with the United States Steel Corporation this summer—which is further proof, say the market gossips, that the big trust is playing politics more than ever.

Every time we pass a certain "Dago" fruit stand in the vicinity of J. M. Barre's "law shop" we hear the parrot yell out "Damn the primary!" And still some people contend that a parrot talks at random.—Jacksonville Floridian.

The State convention of the Socialist party of America was held in Tampa last Saturday, about sixty delegates being present. Five Presidential electors and a candidate for Congress from each of the three districts were named. A. B. Pettigrew, member of the Legislature from Manatee county, was nominated for Governor, and A. C. Sciff of St. Petersburg for Secretary of State. The other State offices were left open.

John T. G. Crawford of Pensacola, elected in the recent primary as a delegate to the National Democratic Convention, will be the youngest man in the convention. Crawford, who is but 22 years of age, is a son of Secretary of State, H. Clay Crawford. He studied law in the University of Virginia and has been practicing in Pensacola two years. He takes to politics as does a duckling to water, and if he has ever made a political mistake it was nothing more than undertaking to manage Governor Broward's late Senatorial campaign—something he can live down.—Palatka News.

It is probable that a State convention of the Democratic party will hereafter be called to select Presidential electors, delegates to the National convention, National committeemen, and adopt a platform of party principles. The rank and file of the Democrats are disgusted with having candidates for the above positions placed on the primary ticket, as well as the party being placed in the ridiculous attitude of standing for no fixed principles. There are issues in State campaigns which should be passed upon by the party, and we believe the new State committee will respect the will of the people in these matters.

JOSEPH CHANDLER HARRIS.

Referring to the death of the above popular writer The Tampa Tribune says:

"This country and the world at large owes Joel Chandler Harris a debt of gratitude. His death at Atlanta Friday night will be universally mourned, but his name will live for ages as the compiler and editor of those classics of the old time negro in which the dumb animals were given human intelligence, human speech and human passions. They go much further toward forming a basis of a purely American literature than does the negro melody to furnish one for a national school of music—although, perhaps, Dyorak and his followers might not consent to this.

"Mr. Harris retold these tales of the plantation in a way to show how fully he entered into the spirit and meaning of the various adventures and the singular personalities of the characters that took part in them. In his imagination Bre'r Rabbit, Bre'r Wolf, Sis Cow, Ole Mr. Tarrapin, Bre'r Fox, Bre'r Possum, Miss Meadows and de gals—all the dramatic personae who entered into the plots of the remarkable Uncle Remus stories—were as real, as true to life and as deeply interesting as to the venerable old uncle himself when exerting his talents as actor and raconteur to delight and astonish the 'chiluns fum de big house'.

"These stories will remain for all times on the shelves of public and private libraries and will give joy to millions yet to come as they have been the delight of millions in the past and still are in the present. The philosophy in these stories, the quaint portrayal of human attributes with a pen stroke as delicate as that of Wadsworth or Burns, makes them as entertaining to the adult mind as they are mirth-provoking to the little ones. They are literary gems, unique in thought, quality and in expression. They have immortalized their compiler, and the name of Joel Chandler Harris is destined to live longer than the names of many more pretentious authors whose books are devoured during a holiday season and are then forgotten."

MILLIONAIRES AND PRESIDENT.

That millionaire Cincinnati who is at the point of death as a result of cheering for thirty minutes for Roosevelt at the Chicago convention, should be a warning to the other sixty-three millionaires who attended the convention to let such strenuous politics as Roosevelt seems to require religiously alone in the future. This sad case of over wrought enthusiasm for the President raises the serious question: Why did these "malefactors of great wealth" cheer for the President? President Roosevelt was supposed to be chasing these rich malefactors to their dens in the lairs of the Octopus, and other predatory corporations, and here we have evidence of collusion, or at least, affection between the millionaires and the President, even to the point of sacrificing their health, if not their lives in his behalf. This devotion is beyond our comprehension.

Most of the sales of land for non-payment of State and county taxes were made by the tax collectors of the several counties on July 6th, and in several instances as early as the first Monday in June, but the sale in Alachua county will not occur until the first Monday in September. This is the latest date of a tax sale in this county since the illegal sale of many years ago, and the people certainly have no cause to complain of the leniency shown them in this particular. In fact, we believe the sale has been delayed entirely too long, for just so long as delays occur in the tax sale, just so long will the people be tardy in payment of taxes.

THE LIGHT IS NOW BREAKING.

Everywhere in the South the same reports are made regarding the widening of the area devoted to food supply crops. This great feature of Southern agriculture is now becoming distinctly noticeable by every man who travels and takes the time to observe the cultivated fields. There is more grain planted in the South this year than for a generation past. There will be more pork killed next winter than for any year since the early sixties. Nearly every man who has a barn will fill it next fall with good, fine, home-made forage. There are more farmers raising poultry and making butter at home than for many seasons in the past, and these well-directed efforts to make the farm self-sustaining as far as possible was never more apparent or pronounced, says an exchange.

To which The Palatka Times-Herald adds that at last the light is breaking in. The sky is getting clear and the clouds are rolling by. The full corn-crib and the crowded smokehouse tell the story of real prosperity on the farm. Diversify and become independent. Depend on cotton or any one crop and remain in poverty. The two short sentences above should be pasted on a placard and tacked above the door of every farmer in the land. They convey the truth, and no man will deny them. Every man loves to see the waving growing grain on his farm, because it bespeaks freedom from the credit system. So about diversification from the hill tops and down the valley, and let it be practiced on every farm. Then will come that character of prosperity which makes for all rural communities wealth, contentment and happiness.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

..FLORIDA NEWS..

The experiment of surfacing roads with crude oil is being watched with much interest in Tampa.

The large wharf recently built by the Porter-Allen Company at Key West collapsed under the weight of a large quantity of buttonwood. Several small vessels were badly damaged by the crash. The schooner "Pride of the Sea" was damaged and the "Luther Pinder" launch was also badly damaged. A number of small boats are buried under the wreck.

The huge ship "Chipana," loaded with a 9,300-ton cargo, has thoroughly proven that it is safe for vessels of deep draft to enter the Fernandina harbor. The "Chipana" is 435 feet long by 54 feet wide, and when going out loaded was drawing 29 feet of water. She passed safely over the bar. It is said the "Chipana" had contemplated entering at Savannah, but found it impossible to do so.

Manager Brill of the Tampa Sulphur Springs Traction Co. states that the first car on the extension of that company's lines into West Tampa will be ready to run on October 1. The new line will cross the Hillsboro river on the bridge being built near the power house, and will proceed westward on one of Tampa's main streets to Howard avenue, upon which street it will traverse the Drew subdivision, where the recently built large cigar factories are located.

A gust of wind blowing a scaffold down, upon which J. W. Dunn and Samuel Eskridge of St. Petersburg were at work, Saturday afternoon, caused serious injury to both. They were working upon the new Potter house, on Second street and Third avenue, south, on a scaffold rising fifty feet into the air. A gust of wind came and took all to the ground. The two carpenters were afterward dug out from the debris. Both were unconscious. It is feared that Mr. Dunn is injured internally, but on account of his condition an examination has not been made. Mr. Eskridge suffered a severe shock on the left side, rendering the left arm useless, and it has been in this condition since the fall.

A dispatch to The Tampa Times from Green Springs says: "T. Roy Young, the popular proprietor of the Bayshore Hotel here, had a narrow escape from death Sunday. While fishing with several other people in the bay a short distance from Safety Harbor, he came in contact with a large stingray, which drove its sting into the side of his left foot, where it broke off. Mr. Young, in great pain, was assisted back to the hotel and put to bed. Dr. Green was called in

BOY TORTURED BY AWFUL HUMOR

Almost Covered with Eczema—No Night's Rest for Nearly a Year—Feared Lifelong Disfigurement—All Treatments Failed and Limit of Endurance Seemed Near.

PERFECT RECOVERY IS DUE TO CUTICURA

"With the exception of his hands and feet, my son Clyde (thirteen years old) was almost completely covered with eczema. Physicians treated him for nearly a year without helping him any. While they were very kind and did all in their power, yet nothing seemed to relieve him. And I had tried many remedies sent to me by kind friends but they all failed. His head, face, and neck were covered with large sores which he would rub until they fell off. Then blood and matter would run out and that would be worse. Many a time he looked as if his ears would drop off. Friends coming to see him said that if he got well he would be disfigured for life.

"When it seemed as if he could possibly stand it no longer, I decided to try Cuticura. I bought a cake of Cuticura Soap, a box of Cuticura Ointment, and a bottle of Cuticura Resolvent. I used them in the evening and that was the first night for nearly a year that he slept. This may sound exaggerated to you, but in the morning there was a great change for the better. In about six weeks you could not have told that he had ever had anything wrong with him. I treated him twice a day for six months and at present he has a fine complexion and not a scar on his body. This story may seem overdrawn, but neither words nor pen can describe Clyde's suffering and how he looked. Our leading physician, Dr. —, recommends the Cuticura Remedies for eczema. Mrs. Algy Cockburn, Shiloh, O., June 11, 1907.

Frequent shampoos with Cuticura Soap and weekly dressings with Cuticura stop falling hair, remove crusts, scales, and dandruff, destroy hair parasites, soothe irritated, itching surfaces, stimulate the hair follicles, supply the roots with nourishment, loosen the scalp skin, and make the hair grow upon a sweet, wholesome, healthy scalp, when all other remedies fail.

Complete External and Internal Treatment for Every Form of Itch, Eczema, and Scabies. Cuticura Soap (50c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.) to Purify the Blood. Cuticura Pills, 25c. per box of 50 to Purify the Blood. and extracted the dangerous sting. He found that the fish had driven its weapon to the bone of Mr. Young's foot. Mr. Young suffered a great deal of pain, but applications made it easier and he is now getting along nicely.—St. Petersburg Independent.

C. S. Hannatt and Mr. Dickey of Jacksonville have organized a firm for the purpose of mining and the cutting of gems and selling principally to the trade. Mr. Dickey, while in New York last week, closed contracts with some of the largest concerns in the country for their entire output of medium and low-grade gem material to be used for bearings and jewels in instruments, watches and the various industrial arts. Their high-grade or gem material they will cut and market themselves as gems.

The unhidden wealth and resources of Florida have been discovered in the form of petroleum, nine miles south of here on the plantation of John Brock, near the famous old Orange Hill postoffice. This great discovery will mark the epoch of developing one of the largest oil fields in the South. The oil shale is seventy-two feet thick on the top and burns like pine tar. A chemical analysis of a sample of the oil shows that it is of the very highest grade of petroleum, and within a few months the oil region will be densely populated with workers at the oil wells and derricks. Work of drilling for oil is progressing rapidly and the well has now reached a depth of over 900 feet and the work will not be completed until the well has attained a depth of 3,000 feet. The company in charge of the operations have the latest improved rotary drilling rig and outfit, built in Beaumont, Tex. The work is in charge of Charles Smith, a Texas ranger, who is thoroughly experienced in the oil-drilling business and competent in every way to push the work through to a successful conclusion. Mr. Smith is highly elated over the prospects and is entirely satisfied with the progress thus far made and is confident that he will get a gusher in the Land of Flowers that will be a financial blessing to that section of the State.—Chapley Correspondent of Times-Union.

GEORGIA LEGISLATURE.

Members Decide to Adjourn and Celebrate Glorious Fourth.

Atlanta, July 6.—The first bill to pass both houses was that of Mr. Dunbar, of Richmond, which the senate passed unanimously at the Friday morning session. Some amendments by Senator Felder, however, will necessitate its returning to the house before it can become a law.

The bill provides for the confirming and validating of all bonds issued by counties and municipalities since the constitution of 1877. Twenty-five members of the senate voted for it.

After an hour's easy work, the senate voted to adjourn until 12 o'clock Monday, July 8, it being the opinion of a scant majority that the Glorious Fourth should be duly celebrated.

Many members were absent and several asked leave of absence until Tuesday.

Senator Peacock made an effort to get a reconsideration of the anti-trust bill, which was passed Thursday, but failed. The barbers' bill, providing a state board of tonsorial examiners which was indefinitely postponed on Thursday, will again be taken up in regular order.

Increase of Salaries.

To increase the terms of governor and state house officers from two to four years, thus doing away with the ceaseless turmoil of elections in Georgia and giving the business man time to breathe between primaries, is considered favorably by the committee on constitutional amendments of the house. That body met Thursday afternoon and recommended for passage the bill of Mr. Tuggle, of Gordon, providing for an increase in length of terms.

Mr. Tuggle's bill has been given strong approval by many members of the house. It provides for an amendment to the state constitution by which the terms of the governor, secretary of state and other state house officers and county officials be increased to four years, to take effect in 1911. Several bills were introduced by Mr. Gordon, making separate provisions for different officers.

Tuggle Bill Unfavorably Reported.

The committee failed to report favorably on Mr. Tuggle's bill to increase the terms of members of the general assembly, but followed the example of congress a year or two ago by reporting with favor the bill of Mr. Hall to raise the salaries of the law-makers. Mr. Hall's bill provides for paying representatives and senators \$7 a day, with \$10 a day for speaker and president.

State Treasurer Park appeared before the committee in support of the amendment which allows the state to raise the salary of the state treasurer from \$2,000 per annum to \$5,000. He also suggested that the department of banking be separated from that of the state treasurer, and asked that his department be allowed \$7,000 per annum for clerical help. The matter was referred to Joe Hill Hall to draw up a bill and report it later.

S.S.S. CURES MALARIA

Malaria is due to impurities in the blood which destroy the rich, healthful qualities of the circulation, and reduce it to a weak, watery fluid. The body is then deprived of its necessary nourishment and strength, and is unable to resist the countless disorders that assail it, and the general system suffers in consequence. The appetite fails, digestion is weakened, chills and slight fever are frequent, while the sufferer loses energy and ambition. Boils, skin eruptions, and some times sores and ulcers follow when the blood becomes deeply polluted with the malarial germs. Both a tonic and blood purifier are needed to cure Malaria, and S. S. S. is best fitted for this work. It is the most perfect of all blood purifiers and at the same time an invigorating, healthful tonic. S. S. S. goes down into the circulation, and removes every trace of impurity or poison, and gives to the blood the health-sustaining qualities it needs. It cures Malaria thoroughly and permanently because it removes from the blood the germs and poisons which produce the disease, and while doing this tones up and strengthens every part of the system. Book with information about Malaria and any medical advice furnished free to all who write.

PICNIC ON THE FOURTH.

A Pleasant Party Enjoyed the Day At the Mill Hopper.

The day had been planned and the baskets prepared. Off to the Devil's Mill Hopper, a jolly crowd, consisting of the Misses Steckert, Prof. R. N. Wilson, Mr. R. Y. Winters, and Mr. and Mrs. R. D. Algee, had determined to go for the day. Leaving Gainesville in the early morn we reached the "abode" at an hour when there was yet time for the cooler breezes of the day to be at their best. Down the steep incline of the Mill Hopper we took our steps, there to see gurgling springs pour forth their refreshing waters, yet how soon to be swallowed up in the bosom of mother earth. Casting a glance across from side to side, gorgeous beds of ferns were to be seen completely hiding the ground. Then there were the dense overhanging vines of many descriptions, and the birds twittering in their safe enclosures. Our friend, Mr. Winters, had thoughtfully taken with him a camera, and many were the beautiful views that were photographed. This, itself, will bring to the minds of the picnickers the reality of the occasion, when years shall have rolled by, and one social affair and another and another shall tend to crowd out the past to make ready for the future.

At 12 noon the dinner was spread, and for forty minutes or more the feast of good things was enjoyed. We ate until we could not eat longer, and then there must be a resting period. After lunch the crowd amused themselves by lounging around on the banks of the Mill Hopper, telling jokes and stories of the past. We would not forget the fireworks, for the salutes that were given from time to time brought back to our minds the days of yore.

When the day had been most pleasantly spent in the primeval forest, out where the breezes blow and the pine trees wave with their gentle and graceful awayings, we returned to Gainesville and to our homes, declaring that a day out to the Mill Hopper is the place to spend the Fourth.

DOLLY.

HYDROPHOBIA.

Claimed That a Person is in Little Danger from Disease.

The following letter was written to Mrs. B. K. Vieth, a prominent lady of Ontario, Canada, in answer to her's of May 26:

"Boston, May 28, 1908.

"Mrs. B. Kirby Vieth.

"My Dear Mrs. Vieth: In answer to your kind favor received, Dr. Chas. W. Dulles of 4101 Walnut street, Philadelphia, who is professor in the University of Pennsylvania, has, under direction of the Pennsylvania Medical Society, been studying rabies and hydrophobia for something like twenty years, and says that statistics show that hydrophobia is so extremely rare as to make it fairly an open question whether it is anything more than a disease of the imagination. If you will write him, I think he will send you useful information on the subject for publication, although of course he cannot write everybody, for he has not the time.

"In past years I have had cases of alleged hydrophobia examined by my men without finding one where the disease of any person was clearly proved to have occurred from that disease. Hundreds of thousands of dogs have been handled in dog pounds and by persons who have received thousands of bites but no one of them has died of hydrophobia. Of course my case, reported in any part of the United States and for which there is no reliable foundation, will be republished by the twenty thousand newspaper. I do not believe that one case in forty or more published have established the disease in any person from hydrophobia. There is ten times as many cases fifty times the number of persons struck by lightning than the number of his dying of hydrophobia.

"With best wishes, am,
Yours sincerely,

"GEO. T. ANGELL.
"P. S.: In 'Who's Who in America' you will find a full account of Dr. Chas. W. Dulles, showing his eminence as a physician and surgeon."

The above is taken from the July number of 'Our Dumb Animals,' published by the American Humane Education Society, of which Mr. Angell

"The Blood Is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought can be directly traced to the impurity of the blood. Foul impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It cures and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. E. V. Pierce, 603 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

WOMAN SHOWED COURAGE.

Paul Revere Ride of Mrs. Ewan Saved Town from Destruction.

Mullica Hill, N. J., July 6.—Paul Revere had no more exciting ride than Mrs. William Ewan had, and her courage saved the town of Ewan from flames.

When the fire, which was started by the three-year-old son of Elwood Kier, had burned his father's barn and Ranchor's large ice house and was fast eating its way to the school-house on one side and the hotel on the other, a telephone message was sent to Mullica Hill for aid. There was not a man about the fire house who could leave and Mrs. Ewan volunteered to take the extinguishers to Ewan. Bracing her feet against the dashboard she tightened the reins and never loosened her hold until she had covered the five miles between Mullica Hill and Ewan in just 15 minutes.

The fire was soon brought under control, and Mrs. Ewan received the praises of everybody.

The Mule's Delusion.

The pack mule is quite as much an institution as the team mule and is absolutely indispensable in the mountains. Mule packing is a fine art, and with a well trained animal and a skillful packer you can safely transport anything from a piano to a bag of oats. When the packer has finished his job in an artistic manner, the animal may buck or back, kick or rear or roll, but he cannot rid himself of his burden, and he finally gives it up in despair. After two or three experiences he will submit to his destiny and fall into line with the rest of the train every morning to receive his load from the packer. A well trained pack mule is always proud of his load, and if by any means it gets loose he will step quietly out of line and wait until the packmaster comes along to tighten it.

The most serious objection to the mule, which you sometimes find in human beings also, is the delusion that he can sing. One who has never heard a mule solo cannot appreciate the extent of his mistake; but, like everything else about a mule, his song is strictly original. It belongs to no other animal. No one can describe, and no one can imitate it.—New York Mail.

WASHING DAY AFLOAT

When the Sailor Lads in the Navy
Turn Laundrymen.

HARD JOB IN BAD WEATHER

Each Man, With His Feet and Legs Bare, Scrubs His Own Clothes and Gets Them Ready For Inspection. "Jimmy Legs" and the "Lucky Bag."

Have you ever noticed how clean and well dressed a sailor lad looks when on shore leave, how white his clothes look when you board the ship on visiting days? But did you ever realize that he was his own washerman?

With a shrill blast of his silver whistle the chief boatswain's mate will pipe, "Scrub and wash clothes!" and every man hurries to his bucket, gets his soiled clothes, salt water soap, draws a bucket of briny or fresh water, as the case may be, and begins his washing.

He is generally barefooted at this time, so that he will not wet his shoes and stockings. He wears his trousers very bell shaped at the bottom in order that he may roll them up over the knees.

After scrubbing and rubbing his clothes until clean he turns them inside out and with "stops" proceeds to get them ready for hanging up. These stops are short pieces of twine, twisted and with whipped ends, that he uses in lieu of clothespins. They are fastened in eyelets placed at the side seams and bottom of his shirts and the waistband of his trousers. He turns all his washed clothes inside out to prevent the right side getting soiled.

They are then hung on a line which, says the Youth's Companion, "is run from the bow to the topmast or upper top of a fighting mast. The well informed man now usually puts his clothes to soak the night before in a bucket half full of water into which he has either sprinkled a handful of soap powder or a small piece of salt water soap. In the morning a little rubbing and his clothes are clean and hung up, while the "landlubber" has just begun.

When they have been thoroughly dried, the chief boatswain again pipes, "Scrub and wash clothes!" and every man rushes for the clothesline to claim his own. If he fails to secure them within a reasonable time, the master at arms, or "Jimmy Legs," takes them down, and they go into the "lucky bag." Then the only recourse the unlucky owner has is to go to the mast, or the "stick," as the court on board ship is commonly called, and petition the "first lieutenant" or executive officer, to order them released.

As a rule, Jimmy Legs, who has charge of the cleanliness of the decks, always has extra cleaning, painting and so forth in mind, and the man whose clothes get into the lucky bag receives so many hours' extra duty as a gentle reminder to be more careful in the future. His name goes on Jimmy's "time book," and when there is extra work to be performed he is called upon to assist.

This is usually the lot of the "landman" who has not been aboard long enough to "learn the ropes."

After they are taken from the line the stops are taken out and the clothes rolled in such a manner that they need no ironing. These rolls are then tied at each end with the stops and are stowed away in the clothes bag. In this way all his clothes, both blue and white, are kept clean, and when Sunday morning comes and there is general inspection on the quarter deck he has no fear of being reprimanded for having on a soiled uniform.

The hardest things of a sailor's outfit to wash are his blanket and hammock. The hammock forms part of his equipment, but belongs to the ship. He is, however, required to keep it clean. His mattress and blanket are lashed into the hammock and stowed in the nettings or crates provided for that purpose.

Every day a couple or more men are detailed to stow them away and at night to break them out. It is this handling so much that gets them fearfully dirty, especially while a ship is coaling. When washing his hammock, a sailor lays it flat on the deck and uses a wire brush to get it clean, with the assistance of soap and lots of "elbow grease."

In visiting a foreign port and before the ship has come to anchor it will be surrounded by "bumboats," generally bringing out washerwomen, who are usually negroes and who clamor for any work in the laundry line. They do good work and charge very little for it. They always show their references from the last ship and always want a new one to add to their already long list.

It is in wet and stormy weather that the sailor has his own troubles trying to dry his clothes. Round the uptakes of the smokestack there is a drying room in which clothes may be hung, but as they grow yellowish when hung

there often this room is used as little as possible. In the newer men-of-war there are installed washing and drying machines which greatly facilitate the laundry work, making it inexcusable for a sailor to have soiled clothes. This machine, which dries clothes by centrifugal motion, does the work rapidly and well.

These machines, which are being added to all the new ships, will in time do away with all hand work. The old familiar sight of a long line of clothes strung from bow to masthead will no longer be seen, and the boatswain's mate will forget how to pipe, "Scrub and wash clothes!"

A Queer Practice.

A queer practice which is general throughout all the tribes of Australia is the ribbing of the skin. When the children are still young long cuts are made across the chest, down the upper arm and leg and even across the back and ribs. While the wound is quite fresh the cut is opened and a mixture of mud is grafted in, the skin being pulled as far as possible over it. The skin eventually grows completely round the mud filling and forms ridges varying in length and size from an ordinary lead pencil to the thickness of a man's little finger and extending from arm to arm. I am informed that while the healing process is going on the pain is exquisite, but the result seems to satisfy all parties concerned.—London Standard.

The Brave Butterfly.

Here is an unorthodox story of King Solomon: One day a butterfly sat on the king's temple and boasted to his wife, "If I chose I could lift my wing and shiver this building to the ground." He swaggered. Solomon, overhearing, sent for the boaster. "How dare you!" he thundered. The butterfly groveled. "I did it to impress my wife," he pleaded. The great monarch was instantly appeased and let him go. "What did Solomon say to you?" gasped a quivering wife five minutes later. "Oh, he begged me not to do it," said the butterfly airily. And Solomon, again overhearing, smiled.—Chicago News.

THE HINDOO FAKIR.

His Patience and Skill in the Bag and Spear Trick.

The feat known as the bag and spear trick has been considered one of the greatest of the Hindoo magician's art. In this trick, says a writer, the Hindoo fakir has his assistant get into a sack, the mouth of which he firmly secures, and then unceremoniously hurls his helpless victim to the ground. Without a sign of warning the fakir drives his spear through the center of the bag.

After withdrawing his weapon, upon the point of which no blood stain appears, the fakir stands and gazes dreamily over the heads of the spectators. The body within the bag flounders about as if in mortal agony. At last, when the occupant is apparently dead, the fakir again plunges his spear into the motionless body. The same antics are repeated. Then the fakir releases his attendant from the bag, and he steps out without a scratch upon his body.

Although the trick is performed with all the carelessness imaginable, it calls for more patience, skill and exactness than any of the so called black art achievements. From the time the attendant enters the bag both fakir and assistant count every breath they take. When a stated number of breaths have been taken the fakir makes his thrust, and the occupant in the bag is prepared to avoid it. Then the count begins again, and at the proper time the spear is driven through the bag a second time. In order to evade the spear and make it appear to pass through his body the assistant doubles up in as small a form as possible. His legs are drawn up close, with the chin resting upon the knees and the arms folded round the lower limbs across the shins. When in this position, at the fiftieth breath, the spear passes under the attendant's arms between the abdomen and the thighs.

The slightest miscalculation by either the fakir or his assistant would mean a serious if not a mortal wound for one and an unheard of disgrace for the other.

That fakir and attendant are able so to train themselves to breathe in perfect unison while giving one of these performances, when the slightest variation in time by either would be fatal, is certainly wonderful.

SOUVENIR FANATICS.

Nothing is Safe From Those Afflicted With the Craze.

If these enlightened days anything from the limb of a tree to a table napkin is liable to be carried away as a souvenir.

A western girl with a well defined case of the souvenir habit, sojourning in New York, was dining at a fashionable cafe and, being prepossessed in favor of the cunning powder cream pots with which the tables were supplied, calmly carried one away in her muff. Can you imagine her self valuation when upon examining her prize later on she discovered carved across the bottom, "Stolen from M.'s?"

A Pittsburg bachelor, wandering into a restaurant, came upon a friend just seating himself with two ladies. The bachelor was invited to join the party, did so, and at the end of the luncheon insisted upon paying the costs. The bill being wrong, he went to the cashier's desk to personally adjust the discrepancy, where he was informed that the extra charge was for spoons which the ladies had put in their hand bags. And that was the first time he had ever met them!

Upon the occasion of the presentation of a handsome silver service by one of the United States to a battleship which was being christened in her honor an elaborate banquet was served aboard ship, at which the service was used. Society came en masse from the town near which they were anchored, and after the function was over there were not enough forks and spoons with which to lay the tables. And yet these souvenir fanatics would draw their moral skirts aside for fear of contamination with a real thief.—Bertha Reynolds MacDonald in Bohemian Magazine.

One on Me.

They talked during dinner of the anarchists.

"But, papa, what is an anarchist?" little Willie asked.

"Well, my son," replied the father, "he's a person who is always blowing somebody up."

The child turned to his mother. "Then are you an anarchist, ma?" he said.—Argonaut.

Shattered Hopes.

He anxiously—I understand your father speaks very highly of me? She—Yes, but he doesn't mean a word of it. He—Are you sure of that? She—Certainly. He does it just to torment mother.—Chicago News.

An Eyewitness.

"Have you any witnesses of the accident?" asked the Haverford county court judge recently.

"Yes," was the reply, "my uncle. He is not here because he is blind."—London Telegraph.

DO YOU WANT TO

MAKE OR LOSE MONEY

THIS SUMMER?

THERE is no good reason for any "summer dullness" in the stores of this city. That's a strong statement—but its not nearly so strong as the one to follow.

No store in this city ever suffered from summer dullness that was not directly traceable to its advertising policy—that was not INEVITABLE on account of its advertising policy. This is a strong statement—but not so strong as the one to follow.

You—if you who read this are a merchant in this city—HAVE THE ABSOLUTE POWER TO DECIDE WHETHER, during THIS summer, YOUR STORE SHALL LAG AND LOSE GROUND, through ENCOURAGING THE NON-BUYING HABIT IN THE PEOPLE—or shall keep as busy as in the so-called "busy seasons." You decide the matter one way or the other when you decide on how much or how little you will advertise during these summer months.

To really "gain ground" at a time when some stores are lagging and falling back is not only possible—it is an aspiration—worthy of a man who has the habit of accomplishing his purpose.

"That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

T. M. Venable of Arredondo was a welcome visitor to Gainesville yesterday. Captain Tom says the people of his section are through shipping "truck," and they are glad of it. They will soon begin harvesting their hay crop, which they hope will prove more profitable than the vegetable crop. As a rule the growers have not reaped a rich harvest from the vegetable and melon crop.

A WARNING

I have learned that certain persons are representing themselves as my agents, and taking orders for large pictures, claiming I will finish them. In some cases the pictures given them have been lost—pictures of dear ones which cannot be replaced. I have no agents, never did, and never will. I deal directly with my patrons for all work. I cannot afford to pay an agent out of the prices I charge for the high-grade work I do. Bring your enlarging to me and you are not only insured against loss of the original, but will have a guarantee of a faithful likeness and an artistic finish.
